FOREWORD

Dear IADS Magazine readers, IADS member students and fellow young dentists,

It is with fluttering excitement that I invite you in on this first issue of the IADS magazine for the 2022/2023 term.

Diligent effort has been put forth in this issue which neatly wraps up our final activities of 2022 and sets the mood for our 2023 activities in an engaging blend that captures all notes of IADS essence; science, advocacy and just the right amount of fun. You'll get a feel of the IADS Experience with our congress report and the inside scoop of events like the unique Z-Experience or reflourished TNT program.

Due kudos to our small yet mighty Editorial Board that produced this magazine, under the meticulous leadership of our Vice President of Public Relations, Dr. Kristine Romanovska.

As I urge you to dive into this reading experience, I must direct the spotlight to articles such as The Ripple Effect, for you to get more up-close and personal with the newest shift in IADS; IADS Stories with Kyle Stanley where up-close and personal will touch on many relatable levels and get inspired along with our very own alumni Dr. Abanoub Yosry, truly deserving of limelight in the IADS Hall of Fame. Surely, a pitstop to look at the stars in IADS Lite can't be missed.

Without further adue, I will let you turn the page and as you do, have a look around, because I might just be reading beside you at our 69th Mid-Year Meeting in Kyrenia.

**DR. LAMIS
ELSHEIKH**
IADS PRESIDENT

Dear reader,

I am honored to greet you for the first time as the Vice President of Public Relations for 2022/2023 term. This year my aim is to deliver IADS community high-quality engaging content and showcase IADS to as many dental students worldwide as possible.

It is with immense joy that I present you the first issue of IADS Magazine of 2023.

I am proud of this final result we have achieved and it would not be possible without IADS Editorial Board, my friends and my supporters. I would like to thank everyone who helped me on this journey.

If you are holding this magazine in your hands, we will most probably have met in person during the Mid-Year Meeting in Northern Cyprus.

This issue will always remain special to me for having the honor to host Dr. Kyle Stanley, a professional to really look up to, as our centerfold with a truly inspiring and wholesomely relatable interview. More content I would indulge you to peruse are IADS' highlight events of 2022 and a warm chat with our remarkable alumni Dr. Abanoub Riad. Scientific content such as clinical cases, latest hot topics in dentistry and an exclusive guest article from Zhermack could surely not be absent.

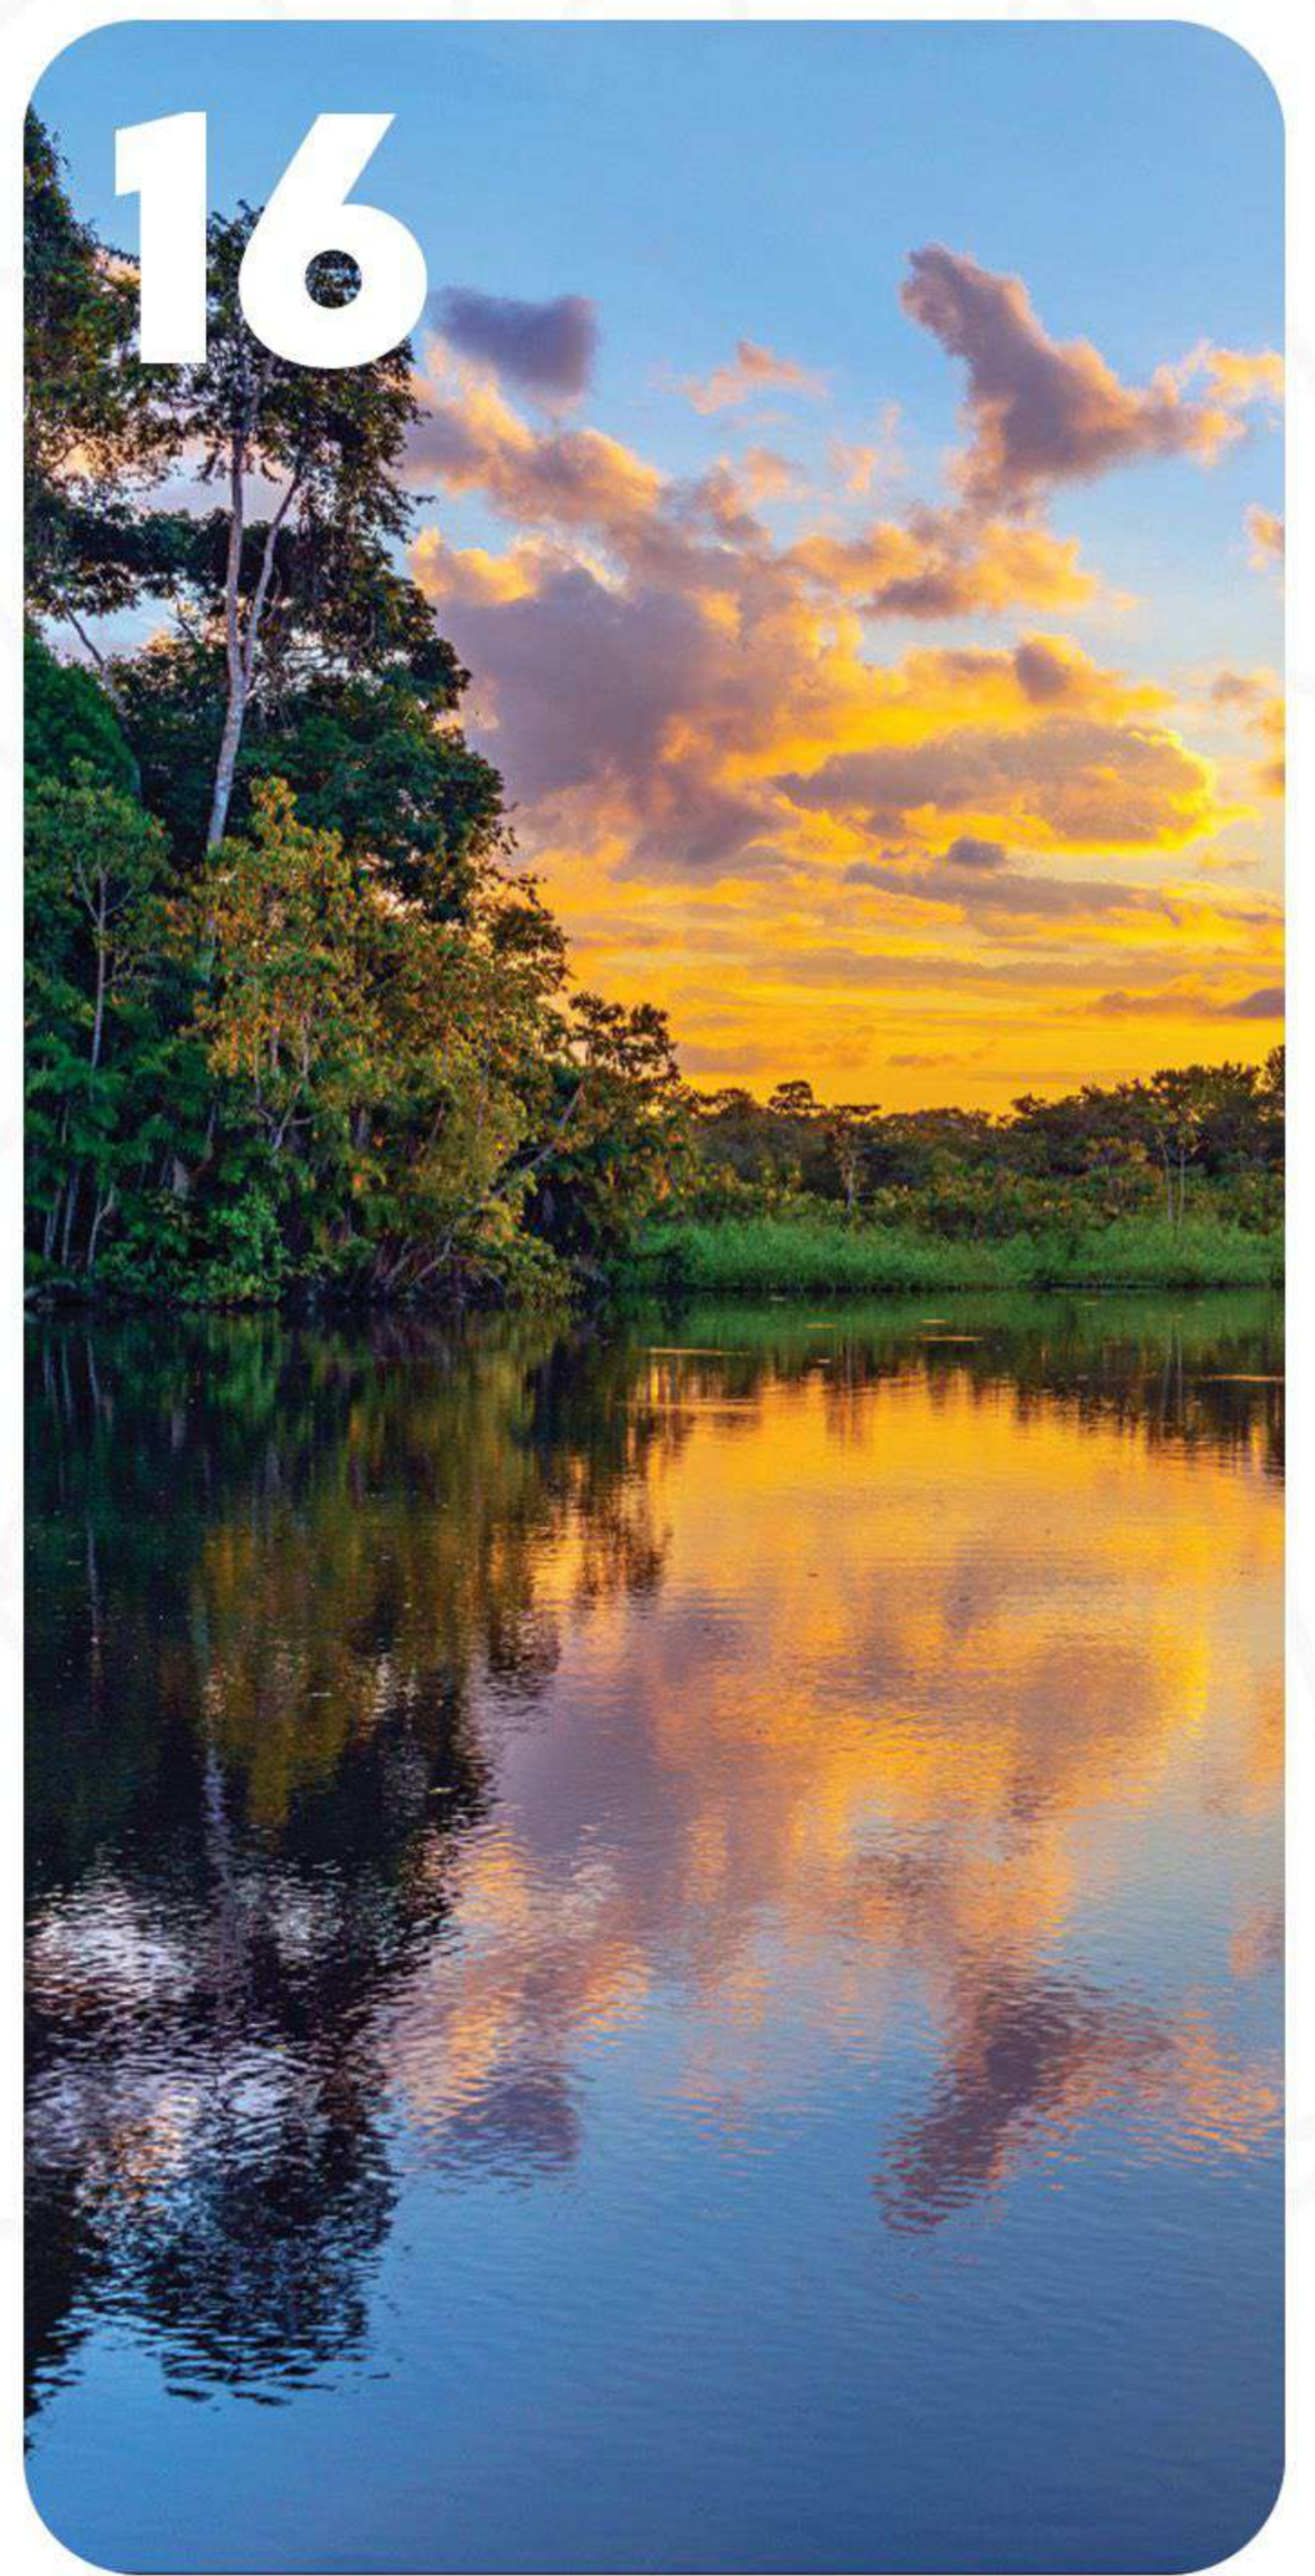

Us dentists love to talk about our profession, yet we are just as fun when it comes to it! IADS 2023 horoscope predictions are here to shine a starry light over your wonder about this year.

I would rather not spoil any more content... Quick turn the page and get reading! I hope you are going to love reading this issue as much as I loved creating it!

Thank you for your trust and I will see you in the IADS events in 2023!

**DR. KRISTINE
ROMANOVSKA**
