INTRODUCING THE LATEST ADVANCEMENTS IN BIOACTIVE MATERIALS

The NEW Predicta™ Bioactive products are the latest examples of new cutting-edge restorative materials from Parkell; a US-based Manufacturer with over 70 years of excellence in dental material manufacturing. Predicta™ Bioactive Bulk and Predicta™ Bioactive Core are dual cure, resin composites, that release fluoride, calcium and phosphate ions to stimulate mineral apatite formation and remineralization at the material-tooth interface. Predicta Bioactive materials deliver a unique combination of physical and chemical properties. They are dimensionally stable, with excellent strength, time-efficient handling, and optical characteristics close to those of natural teeth.

Predicta™ Bioactive Bulk

- Clinical Versatility: Indicated for Class I, II, III, IV, and V restorations.
- Unlimited depth of cure without any need for layering.
- Ideal thixotropic viscosity for easy cavity adaptation.
- Nano-filled for durability and optimized polishability for life-like aesthetic outcomes.

Predicta™ Bioactive Core

- Contains Zirconia for enhanced cuttability.
- Versatile non-slumping formulation ideal for post cementation and core build-up.
- High flexural strength for strong, stable cores that last and resist flexing.
- Highly radiopaque for easy identification.

NEW!

Mineral Apatite Formation

SEM Analysis of Predicta™ Restorative Surface after 28 Days.

Left: Predicta Control, no SBF. Center: Predicta, 7 days in SBF. Right: Predicta, 28 days in SBF. SEM images courtesy of Håkan Engqvist, Uppsala University, Sweden.

We are Woodpecker We are creating future

400+ employees, 100+ R&D engineers

We have applied for 364 patents, among which 78 invention patents

Existing 67,518m² plant, 100,510m² plant under construction

Invest 29.85 million dollars to establish CNC Centers

Invest 5.37 million dollars to establish Dental Professional Laboratory.

Our products are exported to 137 countries and areas.

Automated machines, standardized production.

Woodpecker factory

EMC Tester system

Advanced processing equipment in dental industry

Import processing and testing machine from Germany, Swiss and Japan. Each of the core components of Woodpecker products were produced by the machines that costs more than half million dollars.
